The ESMA Section of ESSKA brings together the various disciplines of sports medicine, including orthopaedic surgeons, sports-doctors, physical therapists, sports-scientists, and others. This European pool of expertise aims to:

• attempt an interdisciplinary collaboration, on the most important problems of health care for athletes, especially injuries
• create working groups, each with a specific topic or a specific sport, and each with an ‘Ambassador’, who connects with the appropriate Sports Federation
• organise joint events with these federations
• publish or otherwise disseminate the practicable results

Dear Colleagues and Friends,

I am delighted to invite you to take part in “ESSKA Speciality Days”, a brand-new meeting concept that will take place in the enchanting city of Madrid on 8-9 November 2019.

This exciting new format will bring together the four specialist Sections of ESSKA (AFAS – Ankle and Foot Associates, EKA – European Knee Associates, ESA – European Shoulder Associates and ESSKA – European Sports Medicine Associates) and will offer a best of both worlds scenario. There will be a distinct scientific programme for each of the four Sections offering the best quality specialised science that our Society has to offer with the added bonus that all networking areas will be shared and the Industry exhibition will be zoned according to specialist fields, yet all in the same hall. We believe that these ingredients will create the perfect recipe for both delegates and Industry to experience a highly specialised and top-class scientific meeting yet with the unique opportunity of having access to and interaction with all delegates and companies across the four Sections of ESSKA.

In keeping with the ethos of interaction, we are proud to introduce the new ‘hot topic’ concept of having access to and interaction with all delegates and Industry to experience a vibrant buzz for participants and companies alike.

Our goal is to promote sport medicine and sports professionals and sportswomen with the most tested scientific tools to help performance, recovery, prevention and return to sports in safety.

Sport medicine doctors, surgeons, team doctors, physiotherapists, nurses, fitness coaches, sport scientists, coaches and athletes are all welcome to our ESSKA – ESSKA Section and we warmly invite you to attend Speciality Days.

ESSKA is a leading European Society in sports trauma, sports treatment methodology, rehabilitation, return to sports and retired athlete support. Our knowledge can be fundamental, together with other European sport medicine people in other fields, to create a European Sports Medicine Group that can be a reference for all that are involved in sports. We look forward to welcoming you to Speciality Days 2019 where we will showcase new concepts of Sports injuries in accordance with our own new concept of European Sports Medicine.

Dear Colleagues and Friends,

ESSKA’s role is to be on top in new hot topics. European Sports Medicine has a new umbrella bringing together all those involved in this diverse and exciting field. The ESSKA Section of ESMA (European Sports Medicine Associates) provides a platform and space to exchange ideas, to promote new innovations, to discuss new methodologies, to present basic science research and results and to present surveys and clinical results!

Our goal is to promote sport medicine and sportswomen and sportmen with the most tested scientific tools to help performance, recovery, prevention and return to sports in safety.

Sport medicine doctors, surgeons, team doctors, physiotherapists, nurses, fitness coaches, sport scientists, coaches and athletes are all welcome to our ESSKA – ESMA Section and we warmly invite you to attend Speciality Days.
